Brief Squadron Overview

**Date Founded:** 1 July 1974, as part of Fighter Early Warning Wing, U.S. Pacific Fleet

**Based Out Of:** Naval Base Ventura County Point Mugu, California

**Current Commanding Officer:** Commander Albert Head III

**Current Executive Officer:** Commander Ryan Carstens

**Current Command Master Chief:** CMDCM Pamela Willingham

**Mission:**

VAW-117 provides Command and Control and Airborne Early Warning any time and any place to accomplish our warfare Commander’s intent. The Wallbanger team stands ready to deliver time critical situational awareness and decisions necessary to support our Navy-Marine Corps, Joint, and Coalition partners. Our current focus is to ensure the combat readiness of this squadron, Carrier Air Wing NINE (CVW-9), and the USS JOHN C. STENNIS (CVN 74) Strike Group.

**Brief History:**

The Wallbangers were established at Naval Air Station North Island, CA on 1 July 1974, as part of Fighter Early Warning Wing, U.S. Pacific Fleet. The squadron received its first E-2B aircraft in October 1974. A year later, they deployed to the Mediterranean Sea aboard USS INDEPENDENCE (CV 62). The squadron made its first Western Pacific (WESTPAC) deployment with Carrier Air Wing TWO aboard USS RANGER (CV- 1) in February 1979.

Since the establishment of VAW-117, the Wallbangers have made several advancements and consistently found themselves at the tip of the spear. During the 1988 WESTPAC onboard USS ENTERPRISE (CVN-65) VAW-117 played a key role in Operation PRAYING MANTIS during which an Iranian ship was destroyed.

The onset of Operation DESERT SHIELD/DEsert STORM led to the most accelerated turn around training cycle to date. Onboard USS ABRAHAM LINCOLN (CVN 72) during its maiden WESTPAC voyage in May of 1991, VAW-117 assisted in the evacuation of the Philippines after the eruption of Mount Pinatubo during Operation FIERY VIGIL. The Wallbangers were awarded the Joint Meritorious Unit Award for their efforts in assisting the evacuation.

After the terrorist attacks of 11 September 2001, the Wallbangers and Carrier Air Wing ELEVEN (CVW-11) were among the first aircraft to lead the strikes in Afghanistan as part of Operation ENDURING FREEDOM (OEF). The squadron flew an unprecedented number of combat sorties in support of air and ground operations. Utilizing, the extensive radar and
communication equipment onboard the E-2C Hawkeye, the Wallbangers rapidly became a vital part of our nation’s anti-terrorist operations.

The Wallbangers returned home in December 2013 after an eight and a half month WESTPAC/OEF deployment onboard the Everett-based aircraft carrier USS NIMITZ (CVN 68). VAW-117 flew missions in support of OEF as a part of CVW-11. During the deployment, the Wallbangers flew over 500 missions, culminating more than 1,900 mishap-free flight hours. The Wallbangers earned the Commander, Naval Air Forces Pacific Battle Efficiency Award, Chief of Naval Operations Safety “S”, the Golden Anchor for retention excellence, the Blue “M” for medical readiness, and the Rear Admiral Akers Award for airborne early warning excellence. Lastly, VAW-117 was awarded the “Golden Hook” award in acknowledgement of their outstanding carrier landing performance.

During the 2016 deployment in support of Operation INHERENT RESOLVE, the Wallbangers established themselves as airborne Command and Control subject matter experts. Fusing organic sensor data and national asset information to enhance real-time decision making, VAW-117 innovated Hawkeye capabilities and acted as liaisons from CVW-11 to the Combined Air and Space Operations Center and also enhanced Joint Surface Warfare tactics with Department of Defense partners. VAW-117 executed their mission at the standard of excellence for which the squadron is known. Following The Wallbanger’s 2016 deployment, the squadron was awarded the Battle “E” award in recognition of their warfighting efficiency.

In October of 2018, VAW-117 embarked on a deployment which will take them around the world in support of Operation FREEDOM SENTINEL, Operation INHERENT RESOLVE, and other coalition operations worldwide.
